PROFILE

Game designer and 3D artist who takes games from first sketch to playable build: game and level design, Unity and C#, Blender models and hand-painted art. I've built a solo Unity game, painted assets for a team project and am now making my kart racer, Scrap Racers. I also teach English and have worked in sales and partner engagement, so I explain ideas clearly, work well in teams and deliver on deadlines.

SELECTED PROJECTS

Koi Quest: Reef Adventure
Solo · Unity, C#

- Designed and built a 3D underwater action game alone: controls, camera, levels, UI, main and pause menus.
- Cut the original platform jumping and rebuilt the game around steering and dodging. Published on Unity Play.

Scrap Racers
In production · Unity

- Designed three driver characters and modelled their trucks in Blender, textured in Heavy Paint.
- Built a browser prototype, Vacuum Racer, to test the driving, collecting and bumping loop before the full build.

The Kingdom of Eldonia
Team · 2D pixel art

- Created game assets in Heavy Paint for a team-made Windows demo.

Jazda! Polish Streets
Browser · Three.js

- Concept, game design, levels and art direction for a 3D street-skating game that runs in the browser.

3D portfolio
Blender

- Stylised and hard-surface vehicles, characters and props, with textured, clay and X-ray turntable renders.

Paint the Lesson
Web app · JavaScript, Supabase

- Built a full web app for English teachers: lesson builder, courses, quizzes, homework and certificates.

EXPERIENCE

English Instructor
Current

English Break · Rzeszów, Poland

- Plan and teach lessons that build students' reading, writing and speaking.
- Create teaching materials, notes, quizzes and practice exercises.
- Track and report on each student's progress.

English Instructor

Allright Pro · Online

- Taught online group classes for adult learners.
- Adapted materials to each group's level and needs; assessed progress through tests and tasks.
- Worked to the school's curriculum and took part in trainings, workshops and team meetings.

Assistant Producer

Trash Arts · Portsmouth, UK

- Produced the short indie film *Decline*, securing its funding from several sources.
- Background actor on the indie series *Right Here Right Now* and contributor to its creative discussions.

SKILLS

Game development
Unity, C#, Visual Studio Code, game and level design, prototyping, playtesting

3D
Blender, hard-surface and stylised modelling, hand-painted textures, rendering

2D art
Heavy Paint, Adobe Photoshop and Adobe Suite, concept art, character painting, 2D animation

Web
HTML, CSS, JavaScript, Three.js, Supabase

People
Teaching and presenting, lesson design, sales and partner engagement, teamwork

EDUCATION

Game Design and Management
University of Information Technology and Management · Rzeszów, Poland

Computer Animation
International College Portsmouth · Portsmouth, UK

LANGUAGES

English
Fluent
